Note: The information in the above report is presented because it represents the most recent breakdown of the Chinese Communist administrative organization and personnel in China and Manchuria. The absence of LI Li-san's name from the personnel of the Northeastern Bureau (paragraph 4) is interesting. The Administrative Area breakdown presented above precedes the 25 May 1948 announcement of the Chinese Communist North Shensi broadcasts which stated

"Forming one vast lying democratic administrative region with a population about that of France, the North China Liberated Area has come into being as a result of the merging of two liberated areas---the Shansi-Chahar-Hopei and the Shansi-Hopei-Shantung-Honan Border Regions. The democratic governments of these two areas have decided to merge together to form the North China Joint Administrative Council administering 184 country towns and cities. The two armies of these two liberated areas have now become the 2nd Field Army Groups of the North China People's Liberation Army. The Central Bureaus of the Chinese Communist Party in these two liberated areas have also merged to form the North China Central Bureau..." It is possible that the merger of these two Border Regions under MAO Tse-tung may indicate a definite area under MAO's control, leaving Manchuria under LI Li-san's control. The changes in the Kwantung Peninsula Administration, since the above report was compiled, have been previously reported).
